Hiwot Addis Abere

Software Engineer

📍 Addis Ababa, Ethiopia   ○ GitHub   in LinkedIn   ⅈⅈ Codeforces   ⌿ LeetCode

EDUCATION

Addis Ababa Institute of Technology   05/2022 – 2026
Bsc in Software Egineering 🔗   Addis Ababa, Ethiopia
- CGPA : 3.6/4.0
- Operating Systems , Full-stack software development , Software project management , Object Oriented Programming , Data Structures and Algorithm , Distributed system

Africa to Silicon Valley (A2SV)   01/2025 – present
Competitive Programming & Software Engineering Training 🔗   Addis Ababa, Ethiopia
- Advanced training in algorithmic problem-solving and competitive programming .
- Prepared for FAANG-level coding interviews with hands-on mentorship and mock interviews.

PROFESSIONAL EXPERIENCE

Full stack developer intern   02/2025 – present
Bekur Techsolution 🔗   Remote
- Developing and maintaining scalable web applications using Next.js (React) and NestJS (Node.js)

Frontend Developer Intern   07/2024 – 08/2024
Prodigy InfoTech 🔗   Remote
- Collaborating with the team to implement interactive and web elements.
- Building and styling responsive web interfaces using HTML, CSS, JavaScript and React.js.

SKILLS

.

Next.js , React , HTML , CSS , JavaScript , Nest.js ,
Node.js, Django, MongoDB , SQL , Figma , Python ,
DSA , Java , Spring Boot , Flutter

PROJECTS

Car Rental Web Application
- Developed using HTML, Tailwind CSS, and JavaScript for a responsive frontend and Spring Boot for the backend, handling user authentication and booking.

Book Managment system
- Built using Django for backend functionality, allowing users to add, edit, and delete books and integrated SQLite for database management and developed a user-friendly interface with HTML and CSS

Pet Adoption Mobile App
- Built using Flutter for the frontend, providing a seamless mobile experience and Nest.js for backend to manage pet listings, user authentication, and adoption requests.
